

Amani Children's Home is church-based, donation-supported 501(c)3 nonprofit. We are entirely funded by the generosity of our international donors and volunteers.

We have 46 children from diverse ethnic and religious backgrounds. They range from 5-16 years, and from nursery the primary schools.

All 46 children live on site, and depend on Amani for food, medical care, and hygienic needs. We welcome donors to sponsor a specific child, and lend a hand to make sure their personal and educational costs are covered throughout their childhoods.

Isaiah 58:10

And if you spend yourselves in behalf of the **hungry** and satisfy the **needs** of the **oppressed**, then your light will raise in darkness, and your light will become like noonday.

What to do while at Amani Children's Home?

Please call ahead to plan a volunteer day during your stay in Tanzania. For day trips, tourists can play soccer with the children or help tend our veggie garden. For longer stays, we welcome you to design a project to carry out during your week with us. Please visit our website for more information on planning a stay.

How to contribute ?

Amani runs on donations like yours. Please consider bringing donations of toys, sports equipment, clothing, school supplies or direct funds. Additionally, our goal is to find a sponsor for each child to ensure they attend a great school- come learn more about our program!

Short Term Goals

1. **Mosquito nets:** Malaria is very prevalent problem in this area. We need to make sure every child's bed has a proper mosquito net. These are inexpensive and can save lives!
2. **Stable funds for food:** Our children eat a carbohydrate-heavy diet. They lack vegetables, fruit and meat. Your donation ensure that we have a reliable and nutritious supply of food.
3. **Fence:** Although Amani has round-the-clock security, we have temporary wire fence that we want to replace with a gated brick wall. Please help us make sure our kids are safe day and night

Long Term Goals

1. Agricultural Project

We currently rely on donations for supply of food, but want to move to a self-sustaining model. We plan to buy a local plot of land for year-long cultivation. This will provide Amani with a predictable source of food, as well as supplement income for our staff. By contributing to this crucial project, you will help ensure that Amani can support itself for years to come.

2. School Project

In 2014, donors helped Amani create a brand - new two -room school. However, in order to complete our on-site school, we need to add a second two-story building to house the remaining 5 classes. Once we finish this huge goal, not only can we instruct our own children on site, but also offer a fantastic education to the local community.
